

CONSTANTINE ABDICATES REVOLUTION BREAKS OUT IN GREECE

LIQUOR ORDER OF HILDRETH IN ABEYANCE

U. S. District Attorney for No. Dak. Halted by Telegram From Washington

HEARING DATE SET
Dispatches Say That Firms Protest Seizure Made on Haynes Order

Fargo, N. D., Sept. 27.—Receipt of a telegram, presumably from Washington, by Colonel M. A. Hildreth, United States district attorney for North Dakota, yesterday held up the prohibition order notifying the Owensboro, Ky., distillery firm of Hill and Hill of the attachment at Port of six carloads of whiskey, valued at more than a quarter of a million dollars, C. R. Wattles, U. S. marshal, stated. Contents of the telegram were not made public.

The liquor which was consigned to the National Bell Drug company of Vancouver, B. C., was seized by federal agents working under the direction of A. A. Stone. There are 43,200 gallons of bonded whiskey in the shipment.

According to the prohibition order November 25 was set as the date when a hearing should be held before Judge Charles F. Amidon in federal court here when the distillery company should show cause why the liquor should not be confiscated.

COMPANY PROTESTS
Washington, Sept. 27.—Complaint that Roy A. Haynes, commissioner of prohibition, has attempted to set up a virtual embargo on exportation of medicinal whiskey, although such shipments are permitted under federal regulations, was laid before Commissioner Blair of Internal Revenue today by counsel for the Hill & Hill distilling company of Owensboro, Ky. Mr. Blair, as the superior of Mr. Haynes, was requested to make an immediate investigation.

HAYNES ORDERED SEIZURE
Lexington, Sept. 27.—Seizure of three of six cars of whiskey en route from the Hill and Hill distillery at Owensboro, Ky., to Vancouver, B. C., at Port of N. D., by federal prohibition operatives was in accordance with orders issued from Washington by Federal Commissioner Haynes, following receipt of information from Canadian officials that the liquor probably would be moved back across the border into the hands of bootleggers, said an announcement at state prohibition headquarters here.

Assurance of the permits were held up for nearly two months after application was filed, while investigation was made concerning the proposed shipment, it was said here. After affidavits had been supplied by the purchasers, a Vancouver, B. C. drug firm, stating the liquor would not be used for beverage purposes, supported by similar affidavits from Canadian customs officers at Vancouver, the application was approved and an export permit issued.

FEAR HIGHJACKERS
Port of N. D., Sept. 27.—Ten federal prohibition officers here tonight guarding the six cars of whiskey which was formally seized yesterday by dry agents under the personal direction of A. A. Stone of Fargo, state director of prohibition enforcement.

Some fear has been felt that high-jackers might make a raid on the Soo Line railway yards in an attempt to secure the liquor which consists of 1,000 cases in each car. There are 12 one-fifth gallon bottles of booze to the case, making a total of 14,000 gallons in the shipment.

The federal agents are heavily armed and aware of the fact that scores of obdurate bootleggers are scattered through the boundary line. While some apprehension is felt regarding safety of the liquor the officers are confident they are able to cope with any situation that might arise.

Grabs Cowcatcher As Train Hits His Motor Truck

Cremath, Sept. 27.—Blair Runyon, truck driver for the State Highway Commission calmly walked off with the remark "that's all there is to it" when the engine crew of a train which had just struck his truck found him unharmed and smoking a cigarette on the cowcatcher. The train was going 65 miles an hour.

The Leaning Buddha, a twelfth century pagoda, near Nanking, China, is 100 feet high, of 13 stories and inclines 12 feet from the perpendicular.

BANDITS LOOT CANADIAN BANK OF \$8,000; FAIL IN EFFORT TO ROB BANK IN NORTH DAKOTA

Brandon, Man., Sept. 27.—Six bandits broke into the Union bank at Moosomin, Sask., blew open the safe with seven charges of explosives, and escaped with \$8,000 in cash early today. They did not touch bonds that were readily accessible.

Telephone and telegraph wires into the town were severed by the outlaws, and the telegraph operator at the railroad station was bound and taken to the bank by his assailants. The manager of the bank and his wife who resided in rooms over the banking establishment, were locked in their apartment.

After blowing open the safe, the bandits fled in an automobile which they abandoned on the outskirts of the city prompting the belief that they had left another car there for their getaway and to lessen the likelihood of their identification by persons who saw the car they used in entering the town.

A train was delayed at the Moosomin station as the severed telegraph wires prevented it from receiving instructions of proceed.

FAIL TO REACH MONEY
Bergen, N. D., Sept. 27.—Because of inability to reach the money

chest in the vault, cracksmen who wrecked the vault door of the Farmers bank of Bergen here some time last night, failed to secure any loot, according to a statement today by N. J. Larson, cashier.

The visit of the robbers was not discovered until 8 a. m. today when Mr. Larson opened the bank's doors for business. No one in the village heard the explosion.

Bergen is on the Soo railway in the South Central part of McHenry county.

BANDITS KILLED.

Eureka, Springs, Ark., Sept. 27.—Two unidentified bank bandits were killed another fatally wounded, and two others seriously shot this noon in a running battle with citizens. The five men had robbed the First National bank at this place of \$25,000 in money and \$90,000 in bonds. The money and bonds were recovered.

FAIL AT TRENTON.

Williston, N. D., Sept. 27.—Cracksmen who entered the Trenton bank at Trenton, 20 miles southwest of the city yesterday after cutting telephone wires into town, failed to obtain any loot, it was announced today.

STATE W. C. T. U. DEMANDS LAW ENFORCEMENT

Condemns Laxity, and Urges

A Revision of Parole and Probation Laws

FOR TOTAL ABSTINENCE

Resolutions passed by the North Dakota W. C. T. U. at its annual convention which closed in Fargo condemn the laxity in enforcement of the Volstead act "in some of our courts," urges a change in the parole and probation laws to apply only to first offenders, deprecates the "demoralizing influence of the traveling carnival," urges the teaching of total abstinence in schools and colleges and endorses the Fess-Campbell educational bill before congress.

Following are the resolutions: "Assembled in the 33rd annual convention of the North Dakota Woman's Christian Temperance union, held in Fargo, we gratefully acknowledge the guidance of our divine leader, and again pledge to him our loyalty and service.

"We believe that the golden rule of Christ must be worked out in the customs of society and the laws of our country. To this end, we ask the help of all Christian men and women.

"We pledge our earnest endeavor to secure our quota in the jubilee membership drive.

Total Abstinence
"As it has been scientifically demonstrated that alcohol is a poison, we emphasize anew the necessity of total abstinence for the individual and the great need of arousing the public to the fact that alcohol home-brew is also a poison.

"That we urge the teaching of total abstinence in schools and colleges, encouraging essay contests and cooperation with the teachers in observing the third Friday in January as temperance day in the schools.

Law Enforcement
"We denounce the laxity with which penalties for offenses against the Volstead act are administered in some of our courts. We commend our federal and state prohibition officers for their efforts for the enforcement of law.

"We also commend the action the attorney general and other officials in their efforts to close the public dance halls on Sunday.

"Whereas, we believe the parole and probation laws as administered do not accomplish the purpose for which the laws are designed but weaken respect for law and the administration of justice.

"Therefore, resolved, that we favor the modification of these laws to apply to first offenders only.

"We deplore the demoralizing influence of traveling carnivals and urge legislation to regulate or prohibit them.

Physical Education Bill
"Believing every child should have the opportunity for adequate physical education and health training, we endorse the Fess-Campbell physical education bill, which has been before the 67th congress.

BRISK DEMAND FOR PHOTOS OF DRY OFFICERS

Philadelphia, Sept. 27.—A new and fairly lucrative business is coming into being in the selling of photographs of prohibition agents to saloon keepers who violate both the spirit and the letter of the prohibition law, according to J. E. Jones, assistant national prohibition commissioner. New Jersey saloon keepers said Mr. Jones are glad to pay five dollars apiece for authentic photographs and are anxious to have a complete collection of government agents who operate in their territory.

FINANCE LOANS AS PROBLEM IN SMALL CHURCH

Conditions to be Better But Churches Will Face Strain, Says Speaker

Fargo, N. D., Sept. 27.—The financial conditions, the problem of the small church and the need of greater cooperation in church fields were presented to the Forty-first annual meeting of the Congregational Conference of North Dakota by Superintendent Augustus C. Hacke here today. Mr. Hacke, with the giving of the report ended the first year in which he has been at the head of the work of the church in the state.

In the beginning of his report the Rev. Mr. Hacke expressed regret that more of the problems of the church in the state had not been solved in the year of work and appreciation of the spirit of loyalty throughout the state.

"With better crops throughout the state this year, conditions are somewhat improved," said Mr. Hacke in beginning his report. "The real financial strain will not be relieved, for with the many bad years for part of the state, accumulated taxes and interest will make this better year serve only as first-aid relief. The low prices are discouraging to many who must put their crops on the market. However, I count one of the best results of these changed conditions, the more optimistic spirit that one finds in every community.

"I think our most serious problem in the state is the problem of the small church. These small churches need just as good preaching and pastoral work as the larger ones. However, it is difficult to get strong leadership for these fields because of the limitations both financially and otherwise. Our trend is toward fewer pastors and larger parishes. Some of our churches are realizing the superior value of a strong leader, even though the number of public services be a little less. This is the enlarged parish idea. This enlarged parish makes increased demands upon the pastor, physically, mentally and socially. However, it gives the rural, or semi-rural minister the opportunity to extend his influence, so that frequently he has a much bigger field than his city neighbor. Progress is slow, but once we get this cooperation between churches, the natural development will be towards stronger churches that will become self-sustaining units.

The neclace, now an ornament, was formerly something that was a badge of disgrace, worn only by slaves as a symbol of their servitude.

ROTARY ETHICS IN BUSINESS ARE DISCUSSED

Ninth District Governor Norman Black Is Guest of Bismarck Rotary

AN ENLARGED PROGRAM TO FACE EDWARDS
Mr. Black Tells Rotary Club Of Necessity for Observing Ideals

The enlarged program of the Rotary clubs was discussed before local Rotarians today by Norman B. Black, governor of the Ninth Rotary district. Mr. Black, who is publisher of the Fargo Forum, has been with the Bismarck club on previous occasions but this was his first visit here in his official capacity.

Tracing the first great program of Rotary welfare work—that of helping the boys of the nation—Mr. Black told the Rotarians of the International program for the extension of ethics of the Rotary in business life. He impressed upon the Rotarians the necessity of remembering and observing the high code of business ethics of the organizations in their daily pursuits. During November, he said, the Rotary club programs should be the subject of Rotary ethics in business. Mr. Black emphasized that the Rotary clubs would not discontinue their interest in and efforts for the boys of the nation, and briefly talked of the progress made in that line of endeavor.

Every Rotary club, the governor said, must work out its own program in conformity with the principles of the organization. While the International Rotary has laid down certain rules of procedure local conditions and needs vary and there is need for individual clubs to exercise initiative in their work.

Robert F. Flint, dairy commissioner, discussed the National Dairy Show, to be held at the Minnesota state fair grounds, October 7-14. He urged the Rotary to continue its support of the dairy industry and diversified farming, but particularly urged attendance at the dairy show not only of farmers but of business men of the state.

Visitors at the luncheon, which was held in the McKenzies, included ladies who helped the Rotary club in successfully staging the "Bismarck in 1872" scene of the pageant. Rotarian Jack Shotwell of Fargo was among the guests.

PARIS REPORT SAYS LONG ON WAY TO ZONE

Washington Denies That Any American Squadron Will Participate in Dardanelles

(By The Associated Press)
Paris, Sept. 27.—Vice Admiral Andrew T. Long, United States Naval commander of the American naval forces in European waters, has gone to Constantinople to direct the naval operations should any become necessary in participation with the foreign squadrons, it was stated here today.

MOVE NOT UNDERSTOOD

Washington, Sept. 27.—Paris news dispatches announcing that Vice Admiral Long of the American navy had gone to Constantinople to direct possible "naval operations," were not understood in official circles here, where it was indicated that participation of American warships in any demonstration against the Turks, was not a part of the present American policy toward the Near Eastern problem.

The state department likewise was without official notification of any change in previous plans regarding the disposition of American warships in European waters, and it was said that the policy of this government to confine its Near Eastern activities to relief measures remained unaltered.

At the naval department it was said that so far as the Washington government had been advised, Admiral Long was on board his flagship, the Battleship Utah, either at Lisbon or on the way to Gibraltar where the Utah is due on October 3, he has planned to go to Constantinople later, however, but only for the purpose of observing conditions and cooperating with Rear Admiral Bristol in relief work.

DEMANDS DISSOLUTION

Athens, Sept. 27.—An ultimatum from the Warship Lemnos which arrived at Laurium, on the peninsula Southeast of Athens, with revolting troops, demanded the dissolution of the National assembly and the formation of a peoples cabinet friendly to the entente.

FRELINGHUYSEN WINS BIG OVER GEO. L. RECORD

Partial Returns Show Him in Lead By More Than 77,000 Votes

TO FACE EDWARDS
In Fall Harding's Friend Will Be Opposed by Wet Candidate

(By The Associated Press)
Newark, N. J., Sept. 27.—United States Senator Joseph Frelinghuysen, friend of President Harding and one of the administration leaders in congress was renominated by Republicans of New Jersey yesterday in a sweeping victory of more than two to one over George L. Record, a Jersey City lawyer.

Returns from 2,054 of the 2,484 districts in the state gave him 146,933 votes against 69,922 for Record, a lead of 77,011.

The Senator waged his campaign on two main issues which he supported, prohibition and the tariff. He did not discuss the soldier bonus against which he voted. And he rarely answered Record's charge that he was sympathetic with monopolies.

In the November elections, Senator Frelinghuysen will fight it out at the polls with Governor Edward I. Edwards, the Democratic nominee for United States senator. As Governor Edwards is the champion of the "wets" New Jersey voters expect a warm contest on the prohibition issue.

Most of the Republican congressmen who were opposed in yesterday's battle—seemed today to have been victorious over non-organization candidates.

ASKS A NEW TEACHERS' LAW

President Allen Wants Minimum Qualifications Law

Fargo, N. D., Sept. 27.—A minimum qualifications law for teachers in the North Dakota Public Schools, the extension of the work of the Congregational Church in North Dakota to the offering of courses in religious education to students in the higher educational centers were the two most essential factors advocated as the next step in education by President C. E. Allen of the State Teachers' College at Valley City before the North Dakota Conference of the Congregational church here today. President Allen was speaking to the general theme of the conference, "The Next Forward Step for Congregationalists in North Dakota."

"Since the repeal of the minimum salary and training law, (June 28) we have had no requirements for teaching in North Dakota except a \$2.00 fee for a certificate, the passing of an examination, which a person of average intelligence can, with a little preparation pass, and the possession of a good moral character, which in practice means that the prospective teacher must have kept out of jail," Dr. A. Allen told his audience in discussing the need of a teacher qualification law in the state and urging their support for the measure. "We ought already done, require a certain minimum amount of school training, including some professional preparation for teaching."

LA MOURE MAN'S WIFE IS HELD IN JAIL GANG

St. Paul, Minn., Sept. 27.—Frank Allen and Mrs. Emma Powers, arrested recently in the gang that is charged with releasing James Ryan from the Ramsey county jail Saturday night, were recognized yesterday by Detectives Bert Carr and Edward Murnane as a pair they arrested in 1919 on a statutory charge on complaint of John Powers of La Moure, N. D. They were indicted, but on request Mr. Powers later, the indictment was nulled.

According to the evidence introduced at the time, Allen and the woman were divorced in April, 1919, and the same day the woman married Mr. Powers. The same day she left him and came to St. Paul, where she joined Allen.

BECOMES STATE SECRETARY
Miss Margaret Brady, formerly pastor's assistant at the First Presbyterian church at Fargo has just entered upon her work as Field Secretary of the North Dakota Christian Endeavor Union, according to announcement here. Miss Brady will endeavor to visit every society in the state before the first of the year, continuing the work so effectively to the State Convention.

HE'S NAMED FUEL DISTRIBUTOR

Conrad E. Spens of Chicago, who has been appointed by President Harding as permanent federal fuel distributor. This is in connection with government plans to prevent a serious coal shortage this winter through a breakdown in transportation, and to insure effective fuel distribution.

TIERNAN CASE BEFORE JUDGE FOR DECISION

Testimony Ends in Case to Determine Parentage of Child Born to Mrs. Tiernan

(By The Associated Press)
South Bend, Ind., Sept. 27.—With hearings in the case of Harry Poulin, charged by Mrs. Augusta Tiernan with the paternity of her ten months old child, ended, persons interested in the outcome were today awaiting the verdict of Judge Chester L. Ducomb, which is scheduled to be announced Saturday.

The improbability of a woman in the position of Mrs. Tiernan, bringing before the public, the story of her relations with another man, unless the acts actually occurred, such as the plaintiff has done, was emphasized by Prosecutor Jellison in summing up the state's case. He asserted it had been shown that Mrs. Tiernan's sole motive in bringing the court action was to make Poulin acknowledge parentage of his own child.

In concluding Prosecutor Jellison said: "We know that Mrs. Tiernan is not a woman to compose a monstrous fabrication—to perjure herself in the eyes of her children. The question before the court is 'who is the father of this child?'"

"The evidence points to Harry Poulin.

In closing his case, the defense attorneys argued that the plaintiff had some ulterior motive for seeking revenge against Poulin and maintained the prosecution had not established that the baby might not be Professor Tiernan's offspring.

It has been indicated by both sides that if a decision is rendered against them Saturday by Judge Ducomb, they will take the case to a higher court.

N. D. HAS DAY AT DAIRY SHOW

Tuesday, October 10, Is Set As the Date

Tuesday, October 10th, will be North Dakota day at the National Dairy Exposition to be held at the Minnesota State Fair grounds, Twin Cities, October 7th to 14th. The announcement of the special day for people from this state is made jointly by Governor R. A. Nestos of North Dakota and General Manager Skinner of the National Dairy Show. Governor Nestos and other state officials will be present and it is expected that the North Dakota Governor, Governor Preuss of Minnesota and also A. J. Glover of Wisconsin, a former North Dakota victor.

North Dakota will have an exhibit in the main agricultural building at the Fair Grounds and this will serve as the meeting place for people from the state.

SCHOOL TEMPERATURE USUALLY 110 DEGREES
Chicago, Sept. 23 Schools conducted in Singapore by the Board of Sunday Schools. Method St. Episcopal Church are held in temperature usually 110 degrees, or more in the shade, teachers say. Studies are conducted from seven in the morning until 1 p. m. Singapore is but one degree above the equator.

REVOLUTIONISTS IN GREECE CAPTURE NAVY AND FORCE ABDICATION OF CONSTANTINE

Turkish Cabinet Sitting at Smyrna Is Completing Its Reply to Allied Note—Military Preparations to Defend Neutrality of Dardanelles Go Forward on Part of British.

REVOLUTIONARY MOVEMENT GAINS

(By The Associated Press)
London, Sept. 27.—Greece is in the throes of a revolution which has already caused the downfall of the government and according to several reports from Athens has forced the unhappy Constantine to abdicate in favor of the Crown Prince, thus losing his throne for the second time in five years.

The revolutionary movement which is said to be led by General Gonatas, is making headway in all directions but thus far without reports of bloodshed.

The insurrection, which while not altogether unlooked for, broke out in formidable force with unexpected suddenness. It had its inception among the vanquished troops brought from Smyrna to the Islands of Mytilene and Chios and among the soldiers at Saloniki. Strangely enough, however, these two revolts seem to have had different object—the former aimed at the overthrow of the government and King Constantine and the latter at the defense of Thrace against the Turks.

(By The Associated Press)

London, Sept. 27.—Greece is in the grip of a revolutionary movement and King Constantine is reported to have abdicated.

At least part of the navy has gone against the government and several warships and transports manned by revolutionaries are believed to be advancing on the capital from the Aegean Islands, where the revolt originated.

Direct advances from Athens are lacking, indicating that censorship is in effect but the report of Constantine's abdication has persisted since the last dispatch, telling of the cabinet's resignation and the approach of a crisis, was received late last night.

The revolutionary movement is headed by an officer named Gonatas, variously described as a general and a colonel, who organized the soldiers on the Island of Mytilene and Chios, off the Smyrna coast to which they were removed following their crushing defeat by the Turkish Nationalists. An order for the demobilization of these troops is said to have been the immediate cause of their mutiny.

The revolt quickly spread to the navy and many of the warships refused to answer queries sent out by the admiralty. An airplane appeared over Athens and showered the city with pamphlets signed by Gonatas and demanding the resignation of the government and the abdication of the King.

\$10,000 GONE FROM ESTATE OF REV. HALL

This created turmoil in the capital, and crowds surged through the streets and about the public buildings. Then a number of the war vessels started for Athens.

A large number of troops mutinied in Saloniki, but this development is said to have taken the form of a military movement organized in Thrace against the Turks.

Official circles here believe former Premier Venizelos has had no part in the revolt. Because of his importance, however, and his large personal following in Greece, it is pointed out that he will hardly be able to avoid figuring in the subsequent developments.

THREATENED LOSS

London, Sept. 27.—The threatened loss of eastern Thrace, following the defeat of the Greek army in Anatolia, has precipitated a crisis in Athens. The cabinet resigned last night and martial law is in effect, with important changes pending, but reports from reliable sources indicate that a peaceful solution will be found.

The Turkish Nationalists continue to menace the strait of the Dardanelles, and are entrencing in the neutral zone, which they refuse to recognize. The British military command has given them 48 hours in which to retire, and is preparing three lines of entrenchments in the region from Pandik to Yarinje, along the Anatolian railway.

In addition to Eren Keui and Kum Kalesi, the Kemalists are in possession of Bigha. A special dispatch not confirmed from any other source, says occupation of the latter place was accompanied by the massacre of the entire Greek and Armenian population, numbering about 900.

The British commanders are confident they can keep the Turks from crossing the straits of capturing Constantinople until the arrival of the formidable reinforcements now on the way.

The reply of the Angora government to the joint Allied note, outlining the conditions under which a peace conference could be held, is anxiously awaited, but it is feared that even an acceptance would not relieve the present situation to any great extent as the Turks are understood to be prepared to demand freedom of military action during the conference.

The British government is watching developments closely, the cabinet ministers and defense experts meeting daily for consultation.

On battalion each of the Cold

Grand Forks, N. D., Sept. 27.—Difficulty is being experienced by farmers seeking winter help on monthly pay basis, according to D. McKay of the state and federal employment office here.

Farm hands apparently prefer employment for a few days at threshing wages to permanent employment on a monthly basis, he says. Near Grand Forks, threshing is nearly completed, but considerable work remains to be done farther northwest.

Mrs. Bruc, the first woman doctor in France, has just died at the age of 86 in the workhouse after practicing half century.

REVOLUTIONISTS IN GREECE CAPTURE NAVY

(Continued from Page 1)
street guards, Royal Fusiliers and Rifle brigade are leaving Aldershot today for the Near East, and other troops Saturday. The Highland light infantry and the King's Scottish Borderers are on the way from Alexandria to Chanak, to gain British position on the Dardanelles.
Naval reinforcements continue to stream toward the straits.

KING HAS ABDICATED
London, Sept. 27.—A Central News dispatch from Athens timed 8:30 o'clock this morning, says King Constantine signed an abdication decree without reservation.

The dispatch which is dated Tuesday night, says the cabinet had been in continuous session for many hours. No official statements had been issued, but it was understood the ministers were drawing up a manifesto addressed to the people.
Thus far it adds, the revolution had been bloodless, despite the excitement of the people, who were surging through the streets and gathering outside the public buildings.

ACCEPTS RESIGNATION
Athens, Sept. 27.—King Constantine has accepted the resignation of the cabinet, which quickly followed the reception of two ultimatums from the Cruiser Lemnos.
The foregoing is dated in Athens today, but the hour of filing was not indicated.

In accepting the resignation, the King said he entirely put aside any idea of resistance which would bring, as a result, civil war in Greece.
The Crown Prince has abandoned his proposed journey to Rumania for the Royal Marriage.

FLEET GOES TO REVOLUTIONISTS
London, Sept. 27.—The Greek fleet has gone over to the revolutionaries, who announce that every officer and member of the crews is wholly with them, according to a Central News dispatch from Athens. The movement, which is headed by Colonel Gonatas, is making headway in all directions.

UPON AUTHORITY NEWS
London, Sept. 27.—Reuters Limited says authoritative news has been received of the abdication of King Constantine of Greece.

WARSHIPS LEAVE
London, Sept. 27.—A number of Greek warships and transports manned by revolutionaries have left the island of Mytilene, off the coast of Smyrna, and are proceeding toward Athens, according to messages from authoritative sources received here.
According to the same sources the revolutionary movement started on the islands of Mytilene and Chios among the soldiers and refugees from the Smyrna district.
All officers who refuse to join the movement are being arrested, it is added.

COMPLETING ITS REPLY.

(By the Associated Press)
Constantinople, Sept. 27.—While the Anatolian cabinet, sitting at Smyrna is completing its reply to the Allied note the Nationalist army continues its concentration of troops on the Imdid and Chanak lines. Mustafa Kemal Pasha now has 1,100 men in Kum Kaleli, at the mouth of the Dardanelles; 5,000 at Adramytti; 50 miles southeast of Chanak; 10,000 in the intervening Sanjak of Karassi and considerable forces in the other areas.

The Nationalist leader expects these concentrations to be completed by Sept. 30, which date coincides with the time set for the final evacuation of refugees from Smyrna. It is considered significant here that General Nureddin Pasha, military governor of Smyrna has declared he cannot guarantee the lives of Christians in Smyrna after that date. This is taken to mean that the Kemalists want to clear decks for action in the event the Allies reject their reply.

The British are no less busy strengthening their lines and checking every move made by the Nationalist. Further arrivals of military and naval units are daily augmenting their forces and inversely impairing Mustafa Kemal's chances of successfully attacking the straits. The Sea of Marmora and the Bosphorus are dotted with the most modern war craft, the concentration rivaling that of the fateful days of the Gallipoli campaign.

The British fleet now includes six dreadnoughts, seven battle cruisers, twenty destroyers and several submarines and giant aircraft carriers. The assembly of the armada and the increase in the British land forces to upwards of 30,000 men have quieted the frayed nerves of the anxious Christian population of the Capital.

The sultan's cabinet met in special session yesterday, and decided

Gassy Stomach

Bloating, Belching, Sour Risings, Heartburn, Pressure—Be Sure To Use Stuart's Dyspepsia Tablets.

Chew one or two after meals or any time and note how the stomach settles down, feels fine, stops gas, acidity, sour risings, belching and such troubles due to indigestion. They neutralize the sour acids, give the stomach an alkaline effect, and you need have no fear to eat what ever you like. Get a 60 cent box today of any druggist. No more drowsiness or heavy feeling after a hearty meal. And you get the benefit of your food in more solid flesh. Most people have a tendency to acid, gassy stomach just after eating or drinking coffee, etc. If a Stuart's Dyspepsia Tablet is chewed at this time it neutralizes the acids, your stomach is sweetened, the gas is prevented and you feel good all over. Try it. Remember you can get Stuart's Dyspepsia Tablets anywhere in U. S. and Canada.—Adv.

AFTER ALL HOPE WAS GONE AT ARGONAUT

After all hope was gone! That's when this picture, snapped at the Argonaut mine in Jackson, Cal., where 47 miners lost their lives, was taken. At the right a group of miners is shown waiting for the mine hoist to bring the bodies up, while relatives and friends of the victims are grouped around waiting for the procession of death.

not to retire unless so ordered by the Kemalist government.

WANTS USE OF STRAITS
Constantinople, Sept. 27.—It is unofficially forecast that the Kemalists will reply to the Allied peace note conditions unacceptable to the Allies in that the Nationalists insist upon the use of the straits for transporting troops.

SOCIALISTS PROTEST
Moscow, Sept. 27.—Upon the heels of the Russian Soviet note to the entente and Balkan states on the Near East situation, the third International has addressed an appeal to the workers of the world urging them to do everything possible to prevent the "European Imperialists" from taking up arms and plunging Southeastern Europe into a new and far reaching war.

The Turkish soldiers inspired by the victories of the Red armies, continues the appeal, have overthrown the Allied designs for the enslavement of the Turkish people. The appeal asserts that English Imperialism threatens world with a new war, involving all the Balkan countries.

It especially asks the workers of England, France, Jugoslavians, Rumania to use their efforts to force the entente to cease military preparations against the Turks, declaring this is part of the duty of the

workers in the interest of the proletarian movement of the world.

INVADE NEUTRAL ZONE
London, Sept. 27.—Moss Turkish Nationalist troops have drifted into the Chanak zone, according to official advices from Constantinople today. This is not regarded in authoritative quarters, however, as aggravating the situation much, and the opinion was expressed in these quarters that trouble would be avoided.

SECOND ULTIMATUM
Athens, Sept. 27.—A second ultimatum declared it was considered the national assembly had already been dissolved, and it demanded the creation of a pro-entente cabinet whose members would be appointed by the revolutionaries.

If no favorable reply had been received by midnight, it was declared disembarkation would be begun.

General Papulus recently appointed military governor of Thrace, proceeded to Laurium to negotiate with the revolutionaries.

Neither ultimatum spoke of the abdication of King Constantine, which was mentioned only in yesterday's airplane manifesto.

The Royalist organs consider, however, that the abdication of the king in favor of the Crown Prince should not be excluded from the possibilities.

PROCLAIM MARTIAL LAW
Paris, Sept. 27.—A Havas dispatch from Athens, not timed there, received this afternoon says:

"The insurrectionists who have nine destroyers and naval airplanes, besides two warships, Kilikis and Lemnos, have landed troops at Cape Sunion (On the Peninsula Southeast of Athens). General Papulus has been sent to try to stop them.

The insurrection, starting among the troops and the navy at Mytilene

and Chios has spread to Saloniki, where General Koutzils induced the garrison to adhere to the manifesto of the Mytilene troops.

TO SEND NOTE
Paris, Sept. 27.—The Angora government has decided to send a note to the powers demanding the immediate evacuation of Thrace, according to a statement attributed by The Figaro to Ferid Bey, the Kemalist representative in France. This step

BISMARCK Business College

Are you attending school where your education will enable you to enjoy a good income ALL YOUR LIFE? That will increase with age and experience?

The Bismarck College courses will lead you into the realm of big opportunities. Let us tell you what we have done for thousands of the most successful business men and women. A Bismarck College course is a sure start in life, and pays big.

G. M. LANGUM, President, College Building, BISMARCK, N. DAK.

had been decided upon, he said, because it was certain the Greeks were preparing for systematic destruction of the country and had already arrested and sent to Greece a number of prominent Turks to be held in exchange for Greeks made captive by the Turks.

Ferid Bey declared the Turks had not recognized establishment of a neutral zone, and added: "If the Kemal government accepts the zone you may be sure it will respect it. In any case, acceptance might coincide only with the meeting of the preliminary armistice conference where we shall demand evacuation of Thrace and restoration of the country to Ottoman administration, and also the return of Constantinople, although perhaps our troops might not enter the capital."

ABDICATION CONFIRMED
London, Sept. 27.—Confirmation of King Constantine's abdication has been received by the British foreign office, it was announced this evening.

EVADES QUESTION
London, Sept. 27.—Mustapha Kemal Pasha, replying to General Harrington's ultimatum, evades the question of the withdrawal of the Turkish troops as demanded, says a Reuters dispatch from Constantinople, but declares that Kemal has no

knowledge of a neutral zone. He complains of the action of the British in destroying buildings and roads and concludes by saying he concurs with the allies in the desire to avoid accidents.

OFFICIAL MESSAGE RECEIVED
(By the Associated Press)
London, Sept. 27.—The abdication of King Constantine of Greece is accepted as an accomplished fact in the highest official quarters here.

This is based on a message from a high diplomatic official at Athens which is understood to state that he had received information of the

King's abdication and believed the information to be true although he was unable to confirm it owing to the unsettled condition attending the revolutionary movement.

AGREES TO TERMS
(By the Associated Press)
London, Sept. 27.—A Reuters dispatch from Athens received shortly before 7 o'clock this evening says King Constantine has abdicated. An exchange telegraph dispatch from Athens received about the same time said it was affirmed that the King had "decided to agree to the demands of the revolutionary."

Instant Quaker Oats

Cooks to perfection in 3 to 5 minutes

You Can Sleep

Longer now, if you wish

Quaker Oats now comes in two styles, identical in quality and flavor.

Our experts have perfected Instant Quaker Oats—the quickest cooking oats in the world. It cooks in from 3 to 5 minutes, and it cooks to perfection.

Now your oat dish can be ready, if you wish, before the eggs or coffee.

Now two great supremacies

Now Quaker Oats in two ways excel any other oats in existence. Long ago their flavor won the world. It has made Quaker Oats the dominant brand wherever oats lovers live.

Quaker is flaked from queen grains only—just the rich, plump, flavory oats. We get but ten pounds from a bushel, but those ten pounds are the finest oats that people ever get.

Now comes quick cooking. Instant Quaker is flaked from the same queen grains. But the oats are cut before flaking. They are rolled very thin and are partly cooked. So the flakes are smaller and thinner—that is all. And those small, thin flakes cook quickly.

If you want exquisite flavor you must get Quaker Oats. If you want five-minute cooking you must get them. Get either or both, as you like. But get Quaker always if you want this dish delightful.

Regular Quaker Oats
Come in package at left—the style you have always known.

Instant Quaker Oats
Come in package at right, with the extra "Instant" label.

Your grocer has both. Be sure to get the style you want.

America's Master of Romance

CHAMBERS' LATEST NOVEL

is a romance of dark intrigue and breathless adventures—a powerful, throbbing story of Eve Strayer, that glorious girl of the North woods.

Like that marvelous gem,

THE FLAMING JEWEL,

first stolen from the royal jewel casket and now hidden in the Hell's Kitchen of the wilds, is Eve—loveliest of heroines, beautiful, innocent, yet compelled to live in the dark hole of the forest where her step-father and his gang flout justice and the law.

THE BISMARCK TRIBUNE

will print this great romance which tells how love, strange and mysterious, came to the heart of this beautiful and lonesome girl, beset with dangers in the depths of the wilderness.

INJUNCTION TO HALT BOARD IN ELEVATOR CASE

Jourgen Olson Secures Order
From Judge Moelling Di-
rected Against Officials

WAS ORDERED SOLD

Minot, N. D., Sept. 27.—Jourgen Olson of Minot has secured an injunction order signed by Judge Moelling of Williston, restraining the board of railway commissioners of North Dakota from selling and transferring the elevator of the Van Hook Grain Co. under power of a bill of sale executed to one of the commissioners three months ago.

Olson alleges in his complaint that he believes that approximately \$15,000 worth of grain tickets issued by the Van Hook concern are spurious and invalid.

The order also prohibits the defendants, W. L. Stutsman, Frank Muhlolland and C. W. McDonald as commissioners of railways and board of public warehousemen for the state of North Dakota, and Martin J. Jacobson, for the Scandinavian American State bank of Van Hook, and the First National bank of Van Hook, from interfering with the possession of the elevator by the plaintiff, from enforcing or attempting to enforce liability by action or otherwise against the plaintiff, or grain company, or any and all grain tickets of any kind issued by the company and in their possession.

The banks named as defendants in the action are enjoined by the order from in any way altering or changing their books of account relating to the accounts of themselves with the grain company, or making any changes against the accounts upon their books, pending trial upon the merits of the case as to all past business only.

Claims Tickets Spurious. Jacobson, the complaint alleges was employed as a purchasing agent for grain for the Van Hook Grain company, and opened accounts for the grain company with each of the defendant banking institutions.

The complaint further alleges that the railroad commissioners have demanded payment of the grain tickets, amounting to approximately \$17,500. The plaintiff asserts in the complaint that he believes that at least \$15,000 in face value of the grain tickets are spurious and invalid, and tickets for which no grain was ever received by the company, and said pretended grain tickets fraudulently and collusively used as the plaintiff believes, by the defendants Jacobson, to and in collusion with the banks whereby the tickets were used for purposes other than the purchase of grain.

Olson in affidavit presented at the time the injunctive order was secured, alleges that about three months ago he executed and delivered a bill of sale of the elevator to one of the railroad commissioners as security to the commissioners, and the state board of warehousemen, for the payment and redemption of outstanding grain tickets issued by the Van Hook Grain Co. on behalf of its elevator agent, and with the distinct understanding that the elevator would not be sold or disposed of, but that the bill of sale would stand as security, practically as a mortgage thereon.

GRADED ROADS ARE FIREBREAKS

Well graded roads are excellent fire-breaks and will aid in preventing spread of prairie fires in the fall, J. E. Kaufman, secretary of the North Dakota Good Roads Association, said today, in calling attention to the advantage of good roads during the present fall in which numerous prairie fires have been reported. Roads ought to be kept clean for a width of 20 to 40 feet as a matter of fire prevention, he added.

START RIOTING.

Rel. 4, Sept. 27.—A Cork message today says 440 prisoners in jail there started rioting Sunday and wrecked cells. To quiet the disorder, guards fired, wounding two men, one fatally.

GOOD STRAWBERRY GROWTH

Hazen, N. D., Sept. 27.—F. J. Wernli of this city is looking for growth of strawberries. He has a given plot of ground, about 30x50 feet, cultivated by him here. The plants were set out a year ago. This year Mr. Wernli sold \$70,000 worth of fruit from the small plot, used, canned and preserved all of his family desired and some were given away. A waste pipe from a butcher shop refrigerating pipe, supplying water was the only unusual feature in the cultivation.

Dance at the Menoken Pavilion Saturday, Sept. 30th. Roads in good condition.

ATLANTIC FLEET IN PRACTICE

Big Naval Demonstration
Staged Off Virginia
Capes

On board battleship Wyoming off Virginia Capes, Sept. 27.—(By Wire) Under the Associated Press.—Under ideal weather conditions the four battleships of the Atlantic fleet against a squadron of naval torpedo planes were ready to launch an "attack" early today steamed out to sea from Lynn Havens road at 5 a. m. to take up the secret positions off the Virginia capes in which they must first be located by the attacking planes. The battleships remained in the roads during the night, but were expected to take a position at least fifty miles off the capes to await the attack.

Meanwhile more than a score of destroyers were strung out between the capes and the battleships in order to be available to assist any plane which might be forced down during the flight from the Hampton Roads base. Some also were to take positions near the scene of the maneuvers in order to pick up the spent torpedoes from the planes.

The battleships in the defense force are the Wyoming, Arkansas, Delaware and North Dakota.

Aided by weather conditions described as most favorable three squadrons of naval torpedo planes today fired 17 torpedoes at the battleship Arkansas and scored seven hits theoretically sinking that ship, after naval scout planes had searched out the Arkansas and three other battleships in a simulated battle attack off the Virginia capes.

ARREST EIGHTH MAN CHARGED WITH MURDER

Sioux Falls, S. D., Sept. 27.—An eighth alleged member of the gang held here under bond in connection with the murder of Police Captain Pike and the robbery of two jewel trunks containing valuables estimated at \$50,000 from the Milwaukee depot was taken into custody at Sioux City, Iowa, last night and is expected to arrive in Sioux Falls some time this morning in charge of Deputy Sheriff Julius Wold, who is bringing the man here in an automobile. His name was given as C. P. Cowan, aged 35.

About \$500 worth of jewels were found in his room, together with a money order and a considerable amount in cash. His arrest was brought about through a note book found in the pocket of George Gotsch, held under \$50,000 bond charged with the actual shooting of Captain Pike. Ray Beyer, an employee of a local wholesale grocery, was taken into custody by police here last night and it was announced is being held as a material witness. Friday morning has been set for the hearing of the men in municipal court.

POPE TELEGRAPHS PASHA
Rome, Sept. 27.—Pope Pius today telegraphed Mustafa Kemal Pasha urging that the Turkish commander to adopt every possible measure to avoid further bloodshed.

FIRE DOES \$37,000 DAMAGE
Aberdene, S. D., Sept. 27.—Fire which early this morning started in the paint shop of Haug and Nymmet at Groton, about 20 miles East of here, spread to three other buildings, a furniture store, bakery and garage, causing damage estimated unofficially at \$37,000, about two-thirds of which was covered by insurance. The origin of the blaze has not been determined.

Dance tonight. Roof Garden. If weather permits. A la carte service.

G. N. INCREASES PAY; ORGANIZES OWN EMPLOYEES

New Wage Is 72 Cents an
Hour for First Class Me-
chanics, Higher for Skilled

St. Paul, Minn., Sept. 27.—Increased pay has been granted Great Northern railway shop workers through negotiation between officials of the road and delegates who perfected the new system organization of shop crafts, it was announced here today.

Negotiation of the new wage scale and working rules and completion of the new shop workers' organization, which supplants the unions called out on strike July 1, were completed today. The new union represents 8,000 shop workers from seven crafts on the Great Northern system throughout the Northwest, union officials said.

The new wage scale has a higher range than that established by the United States Railway Labor Board and the new working rules were declared by the delegates of the union to be more favorable than those prevailing previously.

The new wage scale is 72 cents an hour for first class mechanics and runs as high as 85 cents an hour for highly skilled mechanics.

The Great Northern is the first railroad in the Northwest whose employees have organized a system association in conformity with the suggestion of the labor board.

SETTLERS ARE BURNED OUT

St. Paul, Minn., Sept. 27.—Several settlers in Northern Minnesota were burned out by forest fires last night in the vicinity of Floodwood, according to reports received today by Adjutant General W. F. Rhinow. The Floodwood fire on one at Elmore were reported threatening last night, but reports today indicated the flames were being held.

GENERAL WEATHER CONDITIONS

A deep Low is central over the northern Rocky Mountain region and showers occurred in Washington, Oregon and Kansas. Elsewhere the weather is fair. Cool weather prevails in Iowa and Nebraska, but elsewhere over the Region temperatures are generally above normal.

CANADIAN FARMERS HIT BY LOW PRICE

(By the Associated Press)
St. Paul, N. D., Sept. 27.—Western Canada is in far worse shape as a result of the low prices than farmers on this side of the line, says Walter E. Reed, member of the North Dakota Committee including Governor R. A. Nestos which went to Washington to ask relief from the low price situation through Federal agencies. He reports that the situation is so bad in some sections of Western Canada that there is serious talk of a moratorium on farmers' debts.

by bootleggers to "prify" medicated alcohol. None of these amateur chemists ever gets all the poison out. This should be as vivid a warning as a red lantern at a railroad crossing. But the man with a thirst seems willing to take any chance.

FORESIGHT
When high tariff goes into effect, consumers discover that the tariff duties are added to what they pay for imported goods. That sets the new price, and the seller who brought goods in ahead of the tariff in most cases can pocket the duty as extra profit.

BRIDGE DEDICATION
The dedication of the bridge across the Missouri river between Mandan and Bismarck has come and gone. This massive structure that is the connecting link between the eastern part and the western part of the state means much to North Dakota and Mandan and Bismarck will be known as the twin cities of North Dakota. The cities of Mandan and Bismarck did themselves proud in putting on the Pageant. It was a success in every way and was beyond the expectations of those that attended it. It goes without saying that the citizens of these twin cities devoted considerable time and labor in giving the bridge the fitting dedication that they did.

JOURNEY
The New Yorker, who started for San Francisco in a "prairie schooner" drawn by oxen nearly two years ago, reaches Colorado. He should arrive at destination early in 1924.

RESPONSIBILITY
A mother in an eastern city sues neighbors for \$5000 damages, claiming that they taught her child to swear.

COAL
Coal market has "gone soft." That is, prices have weakened, downward, at the mines. The cause? A coal broker answers: "The big buyers—corporations—are out of the market, holding up their orders until they get a better price."

EDITORIAL REVIEW
Comments reproduced in this column may or may not express the opinion of the Tribune. They are presented here in order that our readers may have both sides of the important issues which are being discussed in the press of the day.

GETTING MEMBERS FOR WHEAT GROWERS UNION
Several of the Red River valley counties are already organizing and procuring memberships in the Spring Wheat Growers Union. The plan under which this organization operates is constructive and in addition to the "pool" now being formed by the North Dakota Wheat Growers' Association where millions of bushels are pooled under the storage ticket system, other and more millions will be pooled by the farmers in retaining grain in their granaries until after the busy season when they can haul it themselves, saving in many instances the cash outlay of a 10 per cent hauling charge. Many observers believe that the market has already shown the effect of the work accomplished by these various organizations, and that in another thirty days' time, if the marketing of durum and rye continues and the Marquis and other spring wheat varieties are held back, the offerings will begin to approximate the "Minimum of \$1.50" slogan adopted by the farmers.

CUTTING WEEDS
We wish to call the attention of the township supervisors to the cutting of weeds along the road sides. Snow will be on the ground before long and a dense growth of weeds can catch and drift snow as nothing else can. It will not take a great deal of time or effort to run the mower along the sides of the road a few times, and in doing so it will not only reasonably assure open roads for the winter, but it will also do away with a lot of weed pests. Why not tend to this one of these days—some day when threshing is being held up?—Shields Enterprise

POISON
Medicated rubbing alcohol, loaded with poisons to make it unfit for internal use, is bought by bootleggers. Potter, federal rum sleuth in Boston, finds two huge plants used

THE TEMPTER
A cartoon illustration showing a man in a suit and hat, labeled 'EUROPE', standing next to a large bottle labeled 'WAR SPIRITS'. A speech bubble from the man says: 'AW C'MON! ANOTHER LITTLE DRINK WON'T DO YOU ANY HARM'. The bottle is being held by a hand that looks like a devil's tail.

ADVENTURE OF THE TWINS
By Olive Barton Roberts
Light fingers, a bad little fairy, was just about to scatter some tacks on the Milky Way in front of the Magic Automobile Nancy and Nick were riding it.

THE FAIR
The second annual Dunn County Fair has come and gone. On the surface everything went as smoothly as a marriage festival. But, as is usual in all public events where there must be both guiding heads and willing hands to attract success, little difficulties arose and maybe some dissatisfaction. It often appears during such times of nervous strain among the workers, that one here is assuming too much authority and another there is neglecting committee duties.

WHITE-MULE
Moonshine whiskey, currently known as "white-mule," is constantly selling on a bigger scale. Drinkers have the false notion that moonshine is "pure stuff; it's just whiskey, unaged."

COLORED
Ladies, this will be a season of browns, says Ora Cne, famous milliner and designer. Brown takes the place of henna. Colors in favor are almond-green and pink-foot-blue. Among metallic shades, aluminum and platinum lead.

FURS
Imitation furs will be "the thing" this winter, predicts Ora Cne, fashion authority. If so, it will be by necessity of pocketbook. If you doubt it, ask any woman to take her choice between imitation fur and Alaskan seal.

LOAN
In ruins of Nippur, Mesopotamia, scientists dig up a brick on which is engraved the record of the oldest known loan secured by collateral. Bel Nadin Shun loaned 30 bushels of dates and took a mortgage on a farm as security.

THE FACE IN THE MIRROR
Your face, does it wear the contented expression of good health, or the features drawn and pallid? In the latter case, your body is read by all who see you, and what woman of spirit wants to be pitied for her physical condition? There is a way to get the nervous, tired lines out of your face and the slump out of your body. The use of that standard remedy, Lydia E. Pinkham's Vegetable Compound, will strengthen the nerves and tone up the system to resist that excessive fatigue.—Adv.

The real cause of the Turk war is said to be that Lloyd George forgot to meet a crisis.
Boston bookkeeper went crazy over his monthly total. Now you know what a total wreck is.
Love affects the heart, head and pocketbook.
Most brides expect to be kept in all the little luxuries to which they haven't been accustomed.
Eye-openers are eye-closers.
Children's clothes, as well as lace curtains, can be fireproofed by soaking for five minutes in a solution of a pound of ammonia phosphate in a gallon of cold water.
The Chinese save their hair combs and have them spun into long threads, and then woven into stockings: the popular belief being that stockings made of human hair keep out the wet better than any others.
The lively ball was of great interest to the old-timers. Jimmy Collins said he was seriously thinking of using a protector and mask at third, if all the reports he had on the ball were true.

WILLYS-KNIGHT IN REMARKABLE TEN-DAY TRIP
Completing within ten days time what is generally a season's run for the average motorist, a Willys-Knight touring car has just concluded a 5,200 mile non-stop, endurance economy run of that distance without even a puncture.

This test made in the rugged mountainous country of northern New Hampshire by the Boston branch of Willys-Overland Company as a demonstration of the car's wonderful endurance and economy is attested to by representatives of the various Boston newspapers and other persons who were passengers at various stages during the trip.

No less than 50 different passengers rode in the car during the test, and as many as 20 different drivers were at the wheel.

While the passengers slept during the night stops, the motor purred steadily on in front of the hotel where they were stopping, one of the drivers and an official observer staying with the car to attest to this fact.

The car never missed a single explosion in the 5,200 miles and at the end of the run climbed Mount Washington, N. H. to the extreme top, 6,300 feet above sea level, one of the steepest hills in the world covering the eight mile ascent in 42 minutes. The road is a private road if it can be termed a road at all.

One reason for damp cellars in the summer is that the moist air in contact with the cool masonry surface of the walls and floor is chilled below its dew point and condensation results.

While it is expected that office buildings will have lives of more than 100 years it is probable that most of the structures of today will fail to suit the practical requirements of their respective localities a century from now.

Morris of the city, Clarence Reason of the city, Master Walter Harrington of Ree, and Mrs. Christina Schubert of the city have entered the St. Alexius hospital for treatment. Miss Esther Wurm of Tuttle and Miss Jean Wishek of Ashley have been discharged from the hospital.

Show Road Picture
The film secured by the State Good Roads Association from the Detroit, Michigan Police Department entitled "Hurry Slowly" and showing how accidents happen to children on Detroit's streets will be presented as an added attraction to the Eltinge theater's bill tonight and tomorrow night.

AT THE MOVIES

THE ELTINGE.
Foremost among the novels which have brought Booth Tarkington lasting fame, is undoubtedly "The Man From Home," which will be shown at the Eltinge theater, Wednesday. With the action paid mostly in Italy, and several scenes in England and America the story is a thrilling one and in its transference to the screen it has lost none of its intensity. Produced by George Fitzmaurice for Paramount, it has been invested with the customary fire and vigor expected from this virile director. One of the chief details is the excellent cast, which comprises such favorites as James Kirkwood, Anna Q. Nilsson, Norman Kerry, Dorothy Cumming and John Milner. Other subjects on the program are an Aesop Fable, Movie hats and "Hurry Slowly," a single reel subject shown under the auspices of the North Dakota Good Roads Association.

CAPITOL.
Producers of "Life's Greatest Question," which is to be the film feature attraction at the Capitol theater tonight, have undertaken to present on the screen a thrilling exposition of the age-old question: Should a woman tell her husband of her past life?

However, it would appear that those responsible for this particular production had given up hope of ever finding a suitable solution to this problem in the center of civilization, since they have chosen to make the locale of their story an outpost village in the Far North. This original touch brings to the screen one of the most compelling stories of adventure and thrill ever screened in the Northwest.

The characters in the story are played by Ray Steward and Louise Lovely, who are co-stars. The latter plays the newly acquired wife of the "lone" most prominent citizen, while the former is a courageous member of the local Northwest Mounted Police who has a love with the bride's brother.

Some hard words make this production, coming as it does, one of the outstanding pictures of the year. It was directed by Harry Revier, and is photographed in the country in which it is supposed to occur.

GRAIN TO BE COLLECTED FOR RUSSIAN RELIEF

Will Be Shipped in Carload Lots from North Dakota This Fall

ORGANIZE COMMITTEE

Burleigh County Organization Is Completed to Aid Famine-stricken

Grain in carload lots will be shipped from North Dakota this year to the Russian relief organization, Christ Flegel of Kulm, state agent, said here today. "Most of the grain will be sent into South and Southwest Russia from which sections most Russians living in North Dakota came from. The grain will be used by the Russians for seed," Mr. Flegel said. "Less than carload lots of grain will be sold and the money given to the Minnesota Russian Relief organization of which the North Dakota organization for which Mr. Flegel is organizer is a branch.

A Burleigh county committee was formed at a meeting held here, the committee including persons chiefly of non-Russian extraction, but who are to join in the work because of the great need of the Russian people. Theodore Koffel was named chairman of the county organization which is to be known as the Burleigh county committee of the Northwest Russian Relief Society.

Members of the committee follow:

Executive Committee, Burleigh County.
Theo. Koffel, chairman; H. P. Godard Al Rosen, Thos. Hall, Rollin Welch, Carl Kositzky, J. C. Anderson, W. E. Parsons and A. S. Bolster, secretary and treasurer.

Local Committees.
Arnold: L. McBride, chairman, and Ole Suthers.
Baldwin: H. G. Higgins, chairman, Louis Spitzer.
Wilton: G. W. Stewart, J. A. Spitzer, Fred Bender.
Stoll: Victor Andor on, chairman; Ar N. Blexrud (Regan), Gottlieb Zellmer (Alta).

Regan: Arnold Gerberding, chairman; A. L. Gaines, Philip Shuh.
Wing: Geo. Anderson, chairman; A. J. Carlson.
Arena: A. C. Isaminger, chairman; W. M. Scott.
Driscoll: H. A. Knudson, chairman; Adam Eisenheiss, Andrew Krugan.

Sterling: H. E. Wildfang, chairman; Martin Nelson.
McKenzie: H. E. O'Neill, chairman; P. P. Bliss.
Monck: A. T. Welch, chairman; H. W. Doty.
Moffit: Val. Benz, chairman; L. L. Rockwood, W. W. McNally.
Brittin: Chas. Anderson, chairman; J. A. McConkey.
Stewartdale: A. A. Stewart, chairman; Ed. Cheak.
Bismarck: F. B. Strauss, chairman; A. W. Lucas, Al. Rosen, L. A. Schipper.

All Elevator Men.
Publicity: R. C. Brandon, chairman; Al. Rosen, Carl Kositzky, W. J. Bennett.
Clothing: Mrs. P. C. Remington, Mrs. F. A. Lahr, Mrs. C. W. Moses.

STRIKERS DENY ALL CHARGES

Fargo, N. D., Sept. 27.—Edward Schmidgill and other striking employees of the Great Northern railway of New Rockford denied all charges made in affidavits today when his ease to show cause why he should not be prosecuted for contempt of order Judge C. F. Amidon's strike injunction order came up in Judge Amidon's court. Henry Johnson, employee of the road, drew a gun on Schmidgill, they testified. The case was continued until ten a. m. Saturday. Judge Amidon ordered that a tent used by picketers should be removed to 900 feet from the crossing in New Rockford where the exchange took place.

The case of strikers at Minot accused of beating an employee of the Great Northern will be heard late this afternoon.

Roy Stephens of Stanton was a business caller here today.

Mrs. Wilcox, of Center Passes Away

Mrs. Burton Wilcox of Center passed away at a local hospital yesterday afternoon at 5 o'clock as a result of an operation. Mrs. Wilcox was 28 years old. She leaves a husband and a sister, Mrs. E. M. Holmes. The remains will be sent to Iowa, the former home of Mrs. Wilcox.

Funeral for Kaiser Boy to be Held Here

Funeral services for Fred Kaiser, 12-year-old son of Charles Kaiser of Miles City Mont., will be held at St. Mary's church Thursday morning at 8 o'clock. Rev. Father Hiltner will preside.

Fred was killed Sunday evening when the rifle which his brother, Raymond, age 9 years, handed him after he had dismounted from the horse which the two boys had been riding, accidentally exploded in his face. The bullet entered the boys' face and death resulted instantly.

The two boys had been hunting Sunday and were riding horseback double. The older boy dismounted first and his smaller brother was handing down the rifle when it accidentally went off. Emil and George Kaiser, brothers of the dead boy, left immediately for Montana expecting to arrive with the remains on No. 4 this evening.

Paul bearers will be the following boys who were school mates of Fred's when he lived in Bismarck will act as pallbearers: Max O'Connell, Harry Rhud, Carl Maassen, Stanley and Frank Robidou, and Wyman Glitschka.

Mr. and Mrs. Charles Kaiser were former residents of Bismarck.

REV. ATKINSON IS MODERATOR

(By the Associated Press)
Fargo, N. D., Sept. 27.—Election of Rev. Frank Atkinson, Carrington, as moderator during the present congregational conference of North Dakota in session here was announced today. He was elected for the period of the conference only to fill the place of Rev. Daniel Earl, Velva, who was unable to be present.

"The next forward step in organization," was being discussed by the conference this morning. Additional registrants were swelling yesterday's attendance of 100.

MERCHANT DIES AFTER A SHORT ILLNESS HERE

H. O. Lerum, of Baldwin, Former Minnesota Solon, Passes Away

LED AN ACTIVE LIFE

H. O. Lerum of Baldwin passed away at a local hospital yesterday afternoon at 1:40 p. m. after an illness of but eight days, death being due to diabetes. Mr. Lerum was a pioneer merchant of Minnesota, had retired from business several years ago but came to Baldwin about eighteen months ago to take charge of business there.

Mr. Lerum was 69 years of age, having been born in Buffalo county, Wisconsin, January 29, 1853. He went to Stephen, Minnesota, in 1883 and entered business. During his long period of residence in Stephen he was president of the city board for a number of terms and represented his district in the Minnesota legislature in 1903, 1905 and 1907. He retired from active business about 15 years ago, but since that time had continued to take an active part in civic affairs in his home city.

Mr. Lerum is survived by a wife and two sons, Oliver H. of Bismarck and Martin A. of Minneapolis. The body will lie in state in the Perry undertaking parlors here tonight and may be viewed between the hours of 7 and 9 p. m. The body will be taken to Stephen for burial on Friday; the funeral to be held at the Lutheran church there, of which he was a prominent member.

POTATO PRICE VARIES SHARPLY

Jamestown, N. D., Sept. 27.—Three cars of fine graded potatoes loaded by Sutasman County farmers for shipment to Minneapolis remained unshipped today. The owners getting a price of 66.6 at Minneapolis, they were undecided whether to ship them west or east, on account of the changing of prices so rapidly.

PRAIRIE FIRE UNDER CONTROL

Wilmington Springs, S. D., Sept. 27.—A prairie fire which swept over

a large area of Buffalo county and for a time menaced Gann Valley yesterday, was brought under control by fire fighters today. It has not been determined what started the fire, which destroyed a considerable quantity of hay, stacked grain and some farm buildings. An estimate of the damage could not be obtained today.

SUCCESSOR TO GRONNA NAMED BY GOVERNOR

Governor R. A. Nestos today announced the appointment of John F. McGrann of Fargo chairman of the Mill and Elevator Commission, succeeding the late A. J. Gronna. Mr. McGrann is an experienced mill and elevator man and has had a wide experience in that business in the state. The commission was appointed by

SPORTS

NEHF WINS FINAL GAME FOR GIANTS

Yankees Now Within Game of Clinching American League Title

Chicago, Sept. 27.—Free from pennant worries, after one of the most strenuous campaigns in their career, the New York Giants, 1922 National league champions, wound up the battle against Western opposition by taking the final game of the series from the St. Louis Cardinals, 6 to 3, behind Art Nehf's steady winning.

It was the third defeat in four games for the team which threatened the Yankees supremacy for a large share of the season, and showed the Cardinals back into fourth place, while Cincinnati, trouncing Philadelphia, 15 to 3, climbed to third position.

Indication that Nehf has practically recovered from the effects of a 10-0 injury which checked his effectiveness earlier in the season, was regarded as an important factor in the Giants world series chances.

The southpaw held the heavy hitting Cardinals scoreless in all but two innings and exhibited perfect control.

Nehf, although beaten twice by Waite Hoyt of the Yankees in last year's series, twirled brilliantly both times and in his third start turned in the deciding victory.

The Giants play a doubleheader today with Philadelphia at the Polo grounds and McGraw plans to call on his reserve forces after giving the regulars a brief workout.

The Yankees within a game of clinching the American league title, hope to settle the race beyond all doubt by winning from Boston tomorrow in the first of a three game series with the Red Sox.

They hold a lead of 3 1/2 games over the St. Louis Browns and with but four more games to play, need only a single victory to eliminate the mathematical uncertainty yet existing.

Dizzy Vance achieved his eighteenth victory of the season while Brooklyn pounded two Boston twirlers to win 10 to 5, in the other major league game played yesterday.

Nine home runs in the three games played brought the season's total for both leagues to 1,028, close to 100 more than last year's record crop of 937 circuit blows.

The pirates tried their luck at Detroit and met another turnback, 5 to 4.

The exhibition game may keep Ty Cobb out of the remaining games of the season. The Tigers' manager was hit on the leg by a pitched ball and had to be carried off the field.

The Braves sent their regular outfield into action for the first time since May but was unable to stop one dodger.

Allies Go Over the Top Again

Again the British and French go over the top side by side. But this time it's at an international women's athletic meet in Brussels. Miss Lines, British contestant (left), taking the hurdle honors.

NEVER TOO WISE TO LEARN

COBB IMPROVING ON WORK AT BAT, SISLER'S STUDYING METHODS OF TY

BY BILLY EVANS.
No matter how great one may be in any line of sport it is always possible to improve one's game. In golf Walter Hagen typifies all that is worth while. He looks the part of a champion and plays it. Yet Hagen never is satisfied, he is always trying to add something new to his repertoire of shots.

In baseball Ty Cobb stands out as the greatest player of all time. Taking into consideration all departments of the game he is the ideal player.

On Bases—At Bat.
There have been few greater base runners than Cobb. While now he lacks some of his old-time speed, he still is figuring what is best to do when he reaches first base.

In the batting end of the sport, Cobb always has been pre-eminent. Since he entered the American League this prowess always has been a source of trouble to the pitchers. Constantly feared by them, he has been called on constantly to face the best pitching that could be offered.

This has meant a series of duels of wits between Cobb and the pitchers, in which Cobb always has had the edge. In a measure psychology has triumphed, for Cobb has always feared the pitchers less than they did him.

Using a New Style.
Most players with Cobb's ability at bat would have been content to rest on their laurels, but not Cobb. This spring I noted that he was using a different style. I couldn't figure out the change, but realized that he was hitting at the ball in a different manner. I asked him about it.

"Yes, I have changed my style slightly," he replied. "A low ball always has been hardest for me to hit. For the last two or three years that style delivery has troubled me more than ever."

"Although I have been hitting at low balls for 17 years in the major leagues, I decided to see if I couldn't devise some way of making it easier."

Made Them Higher.
"After much experiment I discovered that a crouched position, in which I bent my knees considerably, enabled me to hit these balls with better success. In reality I made the low ball high simply by bending the knees when I assumed my position at bat."

The fact that Cobb is hitting better than 400 in his eighteenth year in the American League makes it seem as if his new style had helped some.

George Sisler of the St. Louis Browns is vying with Cobb for the American League batting honors. Sisler is the greatest all-around player that has entered the American League since Cobb's arrival.

Sisler is a modest chap who wears his honors in a quiet way. Recently I read a most interesting statement credited to him, in which he said:

"Cobb is my model. Except when I cut loose at the ball and slug I always like to try to place my hits as Cobb does. I can't claim to have mastered place hitting as he has, but I am learning and believe I am making progress. To my mind place hitting is the secret of batting."

Such a statement will merely add to the great popularity Sisler now enjoys, because he is a real sportsman.

Ways has been known as the greatest money player in the game. His ability to come from behind, demonstrated on many occasions, has earned him that honor.

In his first meeting with Mitchell, a half dozen matches having been scheduled, Hagen gave one of the most remarkable exhibitions of golf ever seen on any course.

Wrist watches are not a modern idea, Queen Elizabeth having been presented with one as far back as 1871.

Holy Trinity, monastery in Thessaly, built in the fourteenth century, is accessible only by ropes and ladders.

LITTLE THINGS MAY DECIDE A WORLD SERIES

By Eddie Collins
World's Greatest Second Baseman
There are little things, considered of minor importance at the time, of their occurrence, and of which the public know nothing, that enter into the outcome of many a world series. For instance, in 1919 the Athletics knew practically every ball the Cubs pitchers were throwing in the first three games played. That's a pretty good "see in the hole," you'll have to admit.

In 1913 there was a certain pitcher on the Giant team who consciously showed by his pitching motion, what he was going to throw, and as a result he lost.

Last year the Yanks sought to have the green canvases which acts as a background for the hitters at the Polo Grounds, lowered during the series. After considerable argument McGraw complied. And the Yanks players now admit that it worked a greater hardship upon their hitting than they figured it would on that of the Giants.

In 1914, owing to a misunderstanding between Manager Mack and Stalling, the Braves missed the use of Shibe Park for practice on the day before the first game. Stalling's players were led to believe that they had been denied the use of the field. As a result of this erroneous impression, more hard feeling existed between the two teams than in any series in which I have ever participated.

Had Tough Times.
Josh Devore had a tough time of it fathoming the pitching of the Athletics in 1911, striking out four times in one game against Plank. The next spring while en route to training camp, a number of Giants and Athletic players met in St. Louis.

Jack Murray, Doyle and Devore were talking together. Barry and I joined them. We exchange greetings, but Devore didn't speak.

"What's the matter?" asked Doyle, "don't you know Barry and Collins?" "How should I know them," Devore answered quickly, "I never got as far as second base in that series last fall."

There probably are just as wise and smart pitchers as Chief Bender, but for craftiness I've never seen his equal.

I'll never forget one play he pulled on no less a person than Manager Frank Chance of the Cubs in the 1910 series. Two on base, two out in the fourth game, being played in old West Side Park in Chicago.

Chief finally worked the count down to three balls and two strikes. Then before pitching the final ball, he stopped deliberately in the box, turned around towards his outfield and waved them back with both hands; as much as to say plainly, "I am going to give him a fast one, play deep."

Slipped One Over.
Then he proceeded with his wind-up, and threw up the prettiest curve ball, which Chance, with his bat on his shoulder, watched float cross the plate for the third strike.

It is an unusual occurrence nowadays to see an umpire hit by a batted ball. But this happened in the 1911 world series, and if I remember correctly, sent the game into extra innings.

Harry Davis hit a line drive off Mathewson back through the box. It struck Tommy Connolly squarely in the back, hurt him, too. The Athletics had a man on first at the time and it looked like a clinch for him to have gone to third on the hit. But of course he was not permitted to do so.

A long fly followed and a run was thrown away. The Athletics eventually won the game, so the incident was soon forgotten. But I can't help thinking how vivid it would have appeared if we had lost.

There are hundreds of "butts" and "what-ifs" in every ball game, but it takes only a victory to blot them out.

SPORT BRIEFS
Toronto.—Harry Greb, American, light heavyweight champion, knocked out Al Benedict of New York, in the second round and declared he would meet Battling Siki, conqueror of George Carpentier, "any time," anywhere for any reasonable amount of money.

Milwaukee.—Tommy O'Brien, Los Angeles lightweight, was suspended for three months by the Wisconsin Boxing Commission on charges of holding and tripping in his recent match with Pinky Mitchell, whose case was postponed.

Columbus, Ohio.—Peter Henley, the Great Volp and Czar Worthy, favorites, were winning horses in the Grand Circuit races.

Kansas City.—Tulsa won the Western League pennant.

ALL STARS VISIT MINOT.
Minot, N. D., Sept. 27.—The exhibition baseball game between the local club and the American league all-stars scheduled to be played here Oct. 15, is an assured thing, according to Herb Hester, manager of the Magicians, who received a telegram from Al Summers of Philadelphia, business manager of the tour. The wire state that the date, Oct. 15, was satisfactory and to make preparations for the game.

To uncover the head is our way of showing politeness and respect; but the Chinese when he wishes to be polite, puts his hat on his head, if it is not there already.

CENTER, FRANK DEHANEY DOING HIS FAMOUS SNAKE DANCE. LEFT, GOLFING. RIGHT, SHOOTING HIS TOY MOUSE. LOWER LEFT, CRODDING THE WOUNDED MOUSE. LOWER RIGHT, POWDERING FOR HIS DANCE.

In Catcher Frank Dehaney, Doc Egan of the Jersey City club has discovered one of the rarest hits in baseball. His antics are every bit as funny as those of the famous Nick Altrock of the Washington club. Dehaney has a green dress, made for him by a Buffalo woman, with which he does the Snake and Serpentine dances on the coaching lines before each game.

He also has a toy gun and a mouse on a string which he shoots every once in a while. Also a lot of golf clubs for washing up and down the side lines.

"IT'S GOOD"

I was using a well-known household article when my friend came in.

"Why did you buy that kind?" she asked.

"Because it's good," I told her.

She asked me why. Without realizing what I was doing I gave her several technical reasons for the superiority of that machine. I listed a number of its mechanical advantages and one or more very special conveniences that I felt meant a great deal to me.

My reply surprised even myself. I had not realized I knew so much about it. After I had recited my reasons to her I analyzed my first answer, "it's good," and I found that answer typified all of the specific things I was able to recite about the machine which I had as a matter of fact recently purchased.

It had been widely advertised and I, as a large buyer for a household, always felt that any woman may be guided to safe and satisfactory investments for her own needs and the needs of her family if she will but use the messages which the manufacturers send to her in her newspaper or in her magazine.

Until I had said, "it's good," I did not realize that I had been reading so much about the advantages of the machine which I subsequently purchased. One after the other those messages had gotten into my mind until when asked to do so I was capable of repeating them almost as if I had been a salesman for the company making that article.

However, I realized that the printed message had not really meant so much to me as the repeated appearance. Seeing that article over and over again meant to me that many other women had reached the point where they could purchase it sooner than I and were well satisfied with it.

Almost instinctively the thought took hold of me that when I saw the name of a product appearing again and again I could feel sure that that product was living up to its promise. I could feel secure in buying it.

If only all women would realize that in whatever they buy — machines or furniture — clothing or food — dress goods or hats — jewelry or toys — they may save themselves unwise expenditures by seeking the product which through its advertising and behavior after purchase compels its thousands of customers to say, "it's good."

SLIGHT RISE
IN WHEAT ON
EARLY DEALS

(By the Associated Press)

Chicago, Sept. 27.—Wheat advanced in price today during the early dealing, continued uncertainty as to likelihood of a class between the British and Turks having a noticeable bullish influence. Buying, however, especially at the start was checked by the fact that Liverpool quotations failed to reflect any unusual developments in the Near East. On the other hand, predictions that the lake sailors strike would bring about increased demand for United States wheat, at the Gulf of Mexico, in particular, tended somewhat to stimulate demand. The opening which varied from unchanged figures to $\frac{1}{2}$ ¢ lower with December $\frac{1}{4}$ ¢ to $\frac{1}{2}$ ¢ and May $\frac{1}{8}$ ¢ to $\frac{1}{4}$ ¢, was followed by a material upturn all around.

Corn and oats moved up a little with wheat. After opening $\frac{1}{4}$ ¢ off to a like advance, December $\frac{1}{4}$ ¢ to $\frac{1}{2}$ ¢, the market secured a slight general upturn.

Oats started $\frac{1}{4}$ ¢ lower to $\frac{1}{2}$ ¢ higher, December $\frac{1}{4}$ ¢ to $\frac{1}{2}$ ¢ and later advanced gains for all deliveries. Provisions were steady, guarded by the course of the hog market.

Subsequently, demand for all rail shipments East from here led to a further advance in the price of September delivery. The market closed $\frac{1}{4}$ ¢ to $\frac{1}{2}$ ¢ higher with December $\frac{1}{4}$ ¢ to $\frac{1}{2}$ ¢ and May $\frac{1}{8}$ ¢ to $\frac{1}{4}$ ¢.

In later dealings corn as well as wheat felt the effect of orders for all rail shipments to the East. Prices closed unsettled, $\frac{1}{4}$ ¢ to $\frac{1}{2}$ ¢ higher with December $\frac{1}{4}$ ¢ to $\frac{1}{2}$ ¢.

NEWS OF WALL STREET

(By the Associated Press)

New York, Sept. 27.—Breath of war in the Near East still cast a dominating influence over the stock market at today's opening. The oil group was the only outstanding exception to the general downward trend. Gains of 1 to nearly 2 points were registered by Tidewater, Barnard, A. Houston, California Petroleum, Phillips Petroleum and Standard Oil of California, the last named at a new high. Mexican Petroleum, however, fell back a point and Maryland and Atlantic Gulf yielded fractionally. Rail shares continued to feel the unfavorable effects of pessimism concerning the situation in the Pacific, Delaware and Hudson, and New Orleans, Texas and Mexico being the first to slip back under selling pressure. One of the early features was an odd lot sale of ten shares of the Atlantic Refining Company at $\$1,200$ a share, a 25¢ share above yesterday's lot quotation. Independent steels, particularly Gulf States and Vanadium, also were subjected to professional short selling, dropping a point or more.

Scattered reactions to bear pressure against certain speculative issues carried the whole list downward before noon. Indications that the early bidding up of the oil shares was used as a screen to unload stocks elsewhere caused some profit taking.

Scattered reactions to bear pressure against certain speculative issues carried the whole list downward before noon. Indications that the early bidding up of the oil shares was used as a screen to unload stocks elsewhere caused some profit taking.

FAIR DEMAND FOR CASH (By the Associated Press)

Minneapolis, Sept. 27.—There was a fair demand for better grades of cash wheat today, unchanged premiums, a few sales showing a slight gain compared with futures, but on the average the market was a bit slower in tone and after the first hour buyers began to drop, dropping 1 to 2 cents compared with December. Durum wheat prices were unsettled with buyers bidding on the basis of the October futures. There was a better demand for winter wheat and prices were firm compared with futures, but not much choice stuff was offered.

Corn demand improved a little and offerings were light. Shippers continued to bid $\frac{1}{2}$ ¢ to 1¢ under December, but other buyers took some at the December price. Mixed was quoted at 11¢.

Oats demand seemed to be just a little bit better and offerings were only moderate. Rye was fair to good with elevators showing keener interest and paying better prices compared with futures. Barley was firm and some seemed to think that they got a cent more for good quality.

Flax demand was rather strong and prices were firmer compared with futures.

WHEAT RECEIPTS (By the Associated Press)

Minneapolis, Sept. 27.—Wheat receipts 454 cars compared with 283 cars a year ago. Most Complete Book and Job Printing Plant in Northwest

MOST COMPLETE PRINTING PLANT IN THE NORTHWEST

Let Us Help You Solve Your Printing Problems. A Card, A Wire, will bring our representative to you.

MODERN PUBLISHING PLANT OF BISMARCK TRIBUNE CO.

If It Is a Job of Printing We Can Do It. Our battery of presses can do the Big Job as efficiently as the Small one

ENGRAVED CARDS

We can give you the most artistic effects in engraved cards at reasonable prices.

WEDDING INVITATIONS

If you want a printed Invitation we can give you the best type styles and Press work, or we can Have it engraved for you.

ANNOUNCEMENTS

If you are planning a social function or need a program for your club let Us figure with you. There is No Job Too Small to command our earnest attention.

The Bismarck Tribune Has One of the Most Complete Binderies in the State

If You have any books to bind or catalogues to print let us give you an estimate. Our bookbinding department has the most modern machinery and can turn out the best work possible. Libraries or offices having binding to do can save time and money by having it done in the Tribune Book Bindery. We furnish looseleaf binders and can print and rule any kind of ledger or special sheet or filler for loose leaf devices.

Letter Heads

Our automatic presses do excellent work in letter heads and miscellaneous printing. Color work is most beautifully executed by these wonderful machines.

Envelopes

Presses that feed envelopes automatically give the best print known. We are prepared to furnish you envelopes printed in any quantities and at right prices.

Circulars

Probably you are planning a business drive and need special circulars to carry the message. Let our superintendent figure with you.

Bismarck Tribune Company

The State's Pioneer Printers
